Yale College Undergraduate Production
Laser Safety Review and Approval

Name of Production: _____

Dates: _____to _____ Venue:_____

Producer: _____

UP Technical Director: _____

Laser device(s) to be used: _____

Is a "Laser Light Show" part of the production? ◯ Yes ◯ No
Will this be ◯ indoors or ◯ outdoors.
How will the device(s) be used: (Be brief, attach an additional sheet if necessary.)

Are the laser devices owned by Yale ◯ , or rented/leased ◯
If rented or leased, from whom?

Do not direct the laser light into the audience, other individual's eyes, at a window or any reflective surface. Environmental Health and Safety and the Undergraduate Production must approve of the use of any laser device(s) in all theatre productions. This approval may require an onsite evaluation of the laser device(s) and a random review of the use of the laser device(s) in a rehearsal or during a performance. Users are responsible for safe use of laser device(s). **Substitution of laser device(s) is not permitted.** I have read and understand these requirements.

Applicant signature/title: _____
